

## Instructions for Utilizing the Flow-Tech Home Video

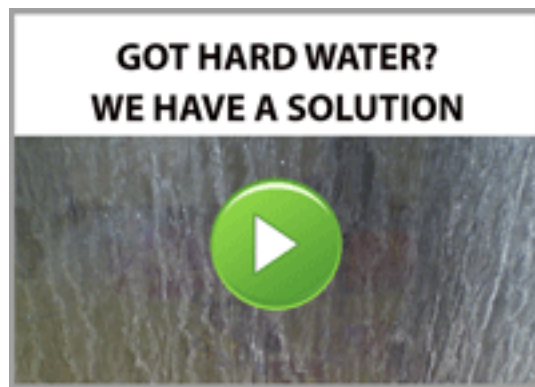

The informational video on Flow-Tech Home is one of the great tools we have currently available to partners.

We recommend you make sure your technicians know exactly where they can direct customers to watch the videos. Currently the non-testimonial version (shorter version) is hosted through Vimeo and can be viewed at [www.plumberschoicewater.com](http://www.plumberschoicewater.com) on the home page. The version with customer testimonial is hosted through youtube and can be viewed at [www.flowtechhome.com](http://www.flowtechhome.com). Both versions can be imbedded into your site. Youtube and Vimeo make this easy to do for your webmaster.

<https://www.youtube.com/watch?v=Wep8mzhS3gl>

<https://vimeo.com/227299155>

Additionally if you send out email blast to your customer base we recommend you include one of the following images and link to the version of your choice or your own website if you are imbedding the file.

If you have any questions regarding how implement the content please call Nicole Ross at 615-338-8748.
